

# PERTEMUAN 12

## PEMBUATAN JARINGAN SEDERHANA

# Langkah - Langkah Pengerjaan

Praktik ini berdasarkan pertemuan 6 - 9

1. Klik hyperlink yang berada di bawah masing-masing gambar atau buka folder yang menyertai materi ini.
2. Isi sesuai instruksi di Cisco Packet Tracer dan perhatikan waktu pengerjaannya (60 Menit ).
3. Jika sudah menyelesaikan tahap-tahap pengerjaan sesuai petunjuk activity di Cisco Packet Tracer, silahkan Klik Check Results untuk melihat apakah yang diisi sudah benar atau tidak (nilai pengerjaan). Dan reset activity untuk melihat checklist pengerjaan.

# Navigating the IOS

Cisco Networking Academy®

Mind Wide Open™

## Packet Tracer - Navigating the IOS

### Topology

### Objectives

Part 1: Establish Basic Connections, Access the CLI, and Explore Help

Part 2: Explore EXEC Modes

Part 3: Set the Clock

### Background

In this activity, you will practice skills necessary for navigating the Cisco IOS, such as different user access modes, various configuration modes, and common commands used on a regular basis. You will also practice accessing the context-sensitive Help by configuring the `clock` command.

# Configuring Initial Switch Setting

 Cisco Networking Academy<sup>®</sup>Mind Wide Open<sup>™</sup>

## Packet Tracer - Configuring Initial Switch Settings

Topology

Objectives

- Part 1: Verify the Default Switch Configuration
- Part 2: Configure a Basic Switch Configuration
- Part 3: Configure a MOTD Banner
- Part 4: Save Configuration Files to NVRAM
- Part 5: Configure S2

Background

In this activity, you will perform basic switch configurations. You will secure access to the command-line interface (CLI) and console ports using encrypted and plaintext passwords. You will also learn how to configure messages for users logging into the switch. These banners are also used to warn unauthorized users that access is prohibited.

# Configure Initial Router Setting

 Cisco Networking Academy®Mind Wide Open™

---

## Packet Tracer - Configure Initial Router Settings

### Topology

PCA

R1

### Objectives

- Part 1: Verify the Default Router Configuration
- Part 2: Configure and Verify the Initial Router Configuration
- Part 3: Save the Running Configuration File

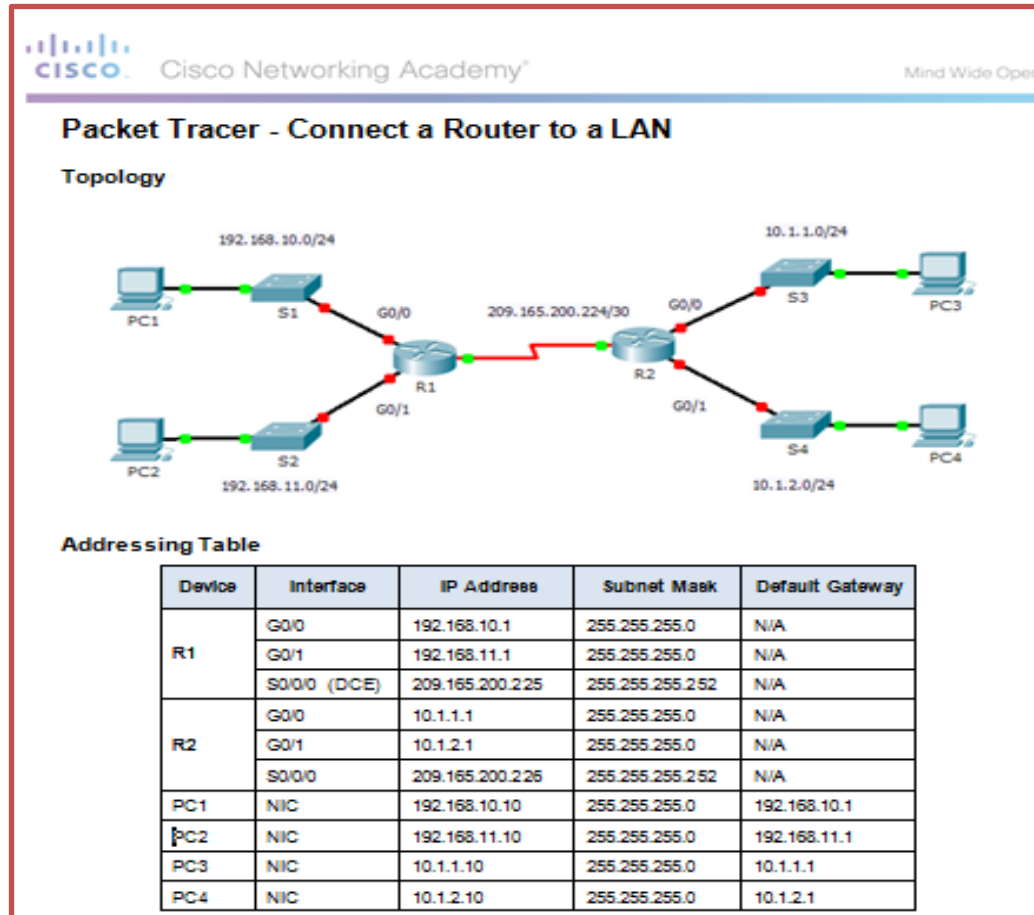

### Background

In this activity, you will perform basic router configurations. You will secure access to the CLI and console port using encrypted and plain text passwords. You will also configure messages for users logging into the router. These banners also warn unauthorized users that access is prohibited. Finally, you will verify and save your running configuration.
